Dimensional stable and durable

Foeldeak® – Innovation by tradition

foeldeak JudoMat Favorit

A good JudoMat has to have many characteristics since it has to cover many aspects. It has to be sturdy enough so that the athlete does not cave in during a standing fight, nor must he waste force or - what would be worse - injure himself due to buckling. Equally important is, however, that it is soft enough that the enormous energy will be dampened in an optimal way in the event of an impact after a powerful throw. Moreover, the edges of the individual mat elements have to maintain their shape since the entire combat or training surface is composed of individual mat elements measuring 1 m by 1 m or 2 m by 2 m. Even heavy athletes should not stumble over edges or gaps.

Foeldeak mats are among the very best judo mats and meet all requirements with flying colors. Not for nothing are they preferentially used nationally and internationally in many competitions. If covered with anti-skid and hygienic rice-straw vinyl or, alternatively, with 100 % cotton - sweat-proof and fixed without any metal clips - Foeldeak JudoMats are extremely durable and meet the highest requirements.

The bottom sides of the mat elements are coated with brake-stable anti-slip material so that they hold their position absolutely immovable even without additional fixation. They are available in three different sizes, from 40 mm, 50 mm to 60 mm. The mat core made of high-end compound foam is also individually selectable between three different weights: RG

200 soft, RG 240 medium, and RG 270 hard. This allows the assembly of a competition or training surface that is precisely adapted to the type of sport or application required. The choice between six attractive colors among the vinyl rice-straw mats (cotton 2 colors, namely red and green) allows to design eye-catching surfaces - whether classical yellow/blue or green/red or rather modern with black and/or charcoal-grey/red - everyone to his taste.

Order your foeldeak® JudoMat Favorit and the appropriate accessories directly from foeldeak!
