foeldeak TrainingDummy professional

Fitness devices from Foeldeak Professional Series are really exceptional. Manufactured with highest technical quality to leave nothing to be desired, and are extremely durable. Hence, also the original TrainingDummy professional.

Especially, the master practitioner and ambitious combat sportsmen, as well as several international winners practice slamming, turning, and lifting, etc. with this high performance training device. The material's quality of this dummy made in Germany is extraordinary.

The 4 – 6 mm thick calf leather is treated intensely in Germany at a small Swabian tannery to create the remarkable softness and a compact grip of the surface, however. In contrast to the team sport version the professional dummy, which is available in three different sizes (children, junior and senior version, from 12 kg to 80 kg), as a feature contains a special fibreglass construction, to ensure that shape and sturdiness stays the same for many years. Further, all seams are double-stitched so even under strongest force no unforeseen event will happen.

If you are looking for something extraordinary the original foeldeak TrainingDummy professional will inspire you!

Please order foeldeak professional equipment at foeldeak, directly.

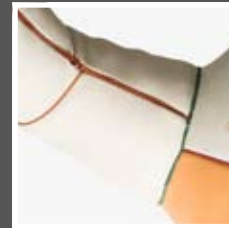

Premium Qualität by **foeldeak**
