foeldeak EasyRoll Mat

There are many reasons and still more possibilities to work out and keep in shape. Combat sport techniques, for instance, enhance concentration and physical shape and are a good compensation for a fast-paced professional routine. There is not always the need for a big gym because also a hobby room, a cleared-out living room or an empty garage could offer the necessary space.

Foeldeak's new **EasyRoll** mat can turn every room easily into an exercise room and retransform it afterwards in no time because the mats can be rolled up at the end of the workout and stored space-savily.

EasyRoll mats consist of ultra light-weight polyethylene foam in sandwich structure and are available in the dimensions 9 sqm (2 slabs à 1,5m x 3m), 20,25 sqm (3 x 1,5m x 4,5m) und 36 sqm (4 x 1,5m x 6m). Their structure makes them extremely light but compact all the same. The 40 mm thickness ensures professional cast and fall protection.

Important for all combat sports.

The phthalate-free surface made of tear-resistant grained artificial leather is slip-proof and feels comfortable. It is non-porous and can thus be cleaned easily and hygienically. The joined mats can be optimally fastened together at the hems by means of the included tape so that any drifting apart will be prevented.

Order your EasyRoll mats directly from foeldeak!

Top Quality from **foeldeak**
PROFESSIONAL SPORTS EQUIPMENT

Perfectly level
